Most orders ship in 4 days.

Preparing your files for output

When submitting files, we prefer pdf files. Please embed the fonts when saving your document as a pdf. This ensures that your file will print correctly. Files should be at 300 dpi resolution. Avoid using white boxes to cover type, images or graphics.

PDF files are preferred. Art for pads should be created 4 up on an 8.5 x 11" page with a 1/8" border of white space. This ensures fast production of your order.

Fonts

MAC - Use only Adobe Postscript fonts. (Avoid using True Type fonts)

PC - Use only True Type fonts. Making the font bold or italic using your application's command could cause a type substitution and unwanted results.

To avoid this use the specific font you want to use.

Software

MAC - Acrobat Pro, Photoshop 7.0, Illustrator 10, Adobe Pagemaker 6.5, Quark 7.3. Please include or embed fonts when not sending all files.

PC - Acrobat Pro, Corel Draw 9, Adobe Pagemaker 6.5, Microsoft Publisher 2003.
